910.1 — PURPOSE

The Technology Enhanced Instruction Department for Bridgerland Applied Technology College (BATC), in an effort to clearly and accurately represent Technology Enhanced Instruction programs/courses, and to determine student readiness, will maintain an e-Learning Web site that is a component of the BATC Web site.

910.2 — CONTENT

Content of the e-Learning Web site is designed to help students in many different areas. Examples of information contained on the Web site include:

- Pre-enrollment information that will help students determine if they have the technical skills required to be successful in an online environment and help students understand what type of hardware is required to participate in an e-Learning course assist students in evaluating work/study habits and their learning styles. and help students configure their Internet browser for an optimal experience in an online environment.

- Enrollment information that will guide students through Frequently Asked Questions, student handbook information, registration, and other areas that are applicable to enrollment activities.

- Students will also find an easy Links to the portal to the Learning Management System portal and tutorials for new users, online resources, and instruction on how to setup an external e-mail account, should they need help. Students will also find e-mail links for technical support.

Additional information will be added, if needed, when new technologies and tools are incorporated; and outdated information will be deleted when needed as appropriate.

910.3 — MAINTENANCE

The Technology Enhanced Instruction Department will keep abreast of emerging student and learning resources and update the Web site on a continuing basis.
